Reviews

Definitely among the best book I have possibly read. I have study and i am sure that i will going to go through once more once more later on. Your lifestyle span is going to be convert when you full looking at this publication.

(Prof. Damon Kautzer III)

CHEMICAL-FREE SKIN HEALTH

Paperback. Book Condition: New. Paperback. 208 pages. The diagnosis of eczema, psoriasis, rosacea and contact dermatitis may just be caused by personal care or household products you are using. Keys CTO, Bob Root, believes that over 50 of all skin disorders for people and their pets have been misdiagnosed and are actually caused by chemicals in the products we use on our skin and in our homes. It is commonly accepted that what we put in our body affects our outside appearance. What is not discussed is that what we put on our body not only affects how we look and the condition of our skin health, but also our physical health. The skin is our largest organ and what we put on it affects the rest of us. This topic serves as the foundation for a new book Bob has written and published by M42 Publishing, titled Chemical-Free Skin Health. The book outlines chemicals used in everyday products that are hazardous to humans and their pets. The speech covers the Dirty Thirty chemicals that are in over 90% of all personal care, household products and pet care products that have been linked to elevated cancer rates. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
