UNDERSTANDING PROGRAMMING LANGUAGES

To read **Understanding Programming Languages** eBook, you should click the web link below and save the document or have accessibility to additional information which might be relevant to UNDERSTANDING PROGRAMMING LANGUAGES ebook.

Paperback. Book Condition: New. Paperback. 98 pages. Product Description Understanding Programming Languages provides a comprehensive look at the design elements of programming languages. It will enable the developers, managers and architects to compare programming languages using the listed design elements to decide which language is the best suited to the solution being developed. It covers over 75 elements of programming languages. From imperative, functional, concurrent, domain-specific and multi-paradigm languages, type systems, continuations, currying, partial application, lambda expressions, Turing completeness, virtual machine comparisons to name just a dozen of over 75 topics covered. Basic knowledge of programming is assumed and familiarity with the most common languages available will help the reader grasp the context of the topic being discussed. Makes a good casual read. And is an essential part of a software professional's vocabulary and engineering practice. The first step to polyglot programmers, improving code quality and a refresher for those working in software engineering. Who is this book for? This book is for Developers, Architects and Managers who want to understand and compare various programming languages to choose the best one(s) for their solution development. About the Author Aditya has been involved with Software Engineering before the time Internet came to India in 1992-1993. During his more than a decade of industry stint he has played the roles of developer, analyst, product manager through CTO. He is the founder of one of the top 25 startups in India. Before he took his sabbatical to write this book he was a Sr. Architect at Thoughtworks. And is a well-known Agile coach. Leads an independent consulting company Aditya Yadav and Associates which offers Technology and Technology strategy consulting services to Fortune companies. He is a contrarian when it comes to SOA and EAI on which he believes there is no need for Governance or COEs...
