

British Reptiles and Batrachians (Paperback)

Filesize: 4 MB

Reviews

This type of publication is every thing and helped me seeking ahead and much more. It usually fails to charge too much. It is extremely difficult to leave it before concluding, once you begin to read the book.

(Juliet Mertz)

BRITISH REPTILES AND BATRACHIANS (PAPERBACK)

Createspace, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.From the INTRODUCTION. This little book differs in several notable particulars from most of those of the Young Collector series that have already appeared. First, the creatures herein described are living pets, the occupants of the Vivarium and not the Cabinet. Next they are few; the intention of these volumes being to treat of British species only, and Britain has but few reptiles. Thirdly, though still comparatively small creatures, they belong to the important group of Vertebrata or backboneed animals. Those of our young collectors who have already possessed themselves of Kirby s, Butler s, Woodward s, and Skuse s contributions to this series, will have observed that the Insects, Shell fish, and Crustaceans treated of are boneless; and that, compared with the rest of the animal kingdom, all are very small creatures. It is worthy of note that out of the seven sub-kingdoms in which zoologists have generally arranged the inhabitants of the globe, six are composed entirely of these small, boneless creatures, while the one remaining sub-kingdom, animals with a bony skeleton, the Vertebrata, embraces the largest and the most important groups, including man. Persons who have acquired the habit of observing nature - those particularly who incline to the study of animated nature - cannot fail to be impressed by its teeming life in myriad forms. Even in a city during the summer, birds and insects are abundant; and we have only to place some pond weed in a glass bowl of water, and a world of life will soon inhabit it. Should our home be in rural districts, and our inclination lead us to study the denizens of trees, streams, or meadows, we become...
